

Metropark Station

Parking Facility

Nexus Awarded Parking Management Contract for NJ Transit Metropark Station

The Metropark parking facility is the largest parking facility owned by NJ Transit. In June 2006, with the assistance of NJ Transit and Tim Haahs Associates, Nexus installed a fully automated gated and pay station parking revenue control system. The new system accounts for every space and provides a high level of customer service. It allows for customers to either prepay upon arrival or pay when they return and park a maximum of 21 days. The system offers several different payment options (cash or credit card) which either is at a pay station located in the elevator lobbies or directly in the exit lane prior to leaving the parking garage.

Facility Characteristics:

- **Owner:** NJ Transit
- **Constructed:** 1995
